

Terms and Conditions

Your purchase is subject to MASTERS FLOORING COMPANY INC.'s ("Masters") terms and conditions of sale which are set forth below, and which by reference are fully incorporated into and an integral part of your Contract.

Pricing and Payment for Merchandise

We make every attempt to maintain the lowest prices on the merchandise we offer, but price changes do occur. As a result, prices are subject to change until you have actually entered into a written contract (the "Contract") for your order.

Your purchase of an item of merchandise will not be complete until your transaction is completed by the execution of the Contract at the store. If you place an order which includes installation, a store representative will visit your home to review the specifics of your installation, and thereafter, once the installation costs have been calculated, we will be able to present you the Contract for execution.

In the event of default by the Customer under any of the terms and provisions hereof, and should Masters employ an attorney to enforce any provision hereof, or to collect damages for breach of this contract, the Customer shall pay to Masters such reasonable attorney's fees as may be expended with respect thereto. In addition, should Customer breach this Agreement, Masters may charge and collect a restocking fee. Such remedy shall be in addition to all other remedies available to Masters. Customer and Masters agree that this Contract is the complete agreement between the parties, and represents the entire understanding of the parties hereto. There are no oral agreements, understandings or representations made by any party to this Contract which are outside of this Contract and are not expressly stated therein. This Contract is fully integrated.

Material Amounts and Product Color

Material Amounts

A 2% variance on material widths is within mill tolerances and is agreed to be acceptable within the industry limits. The amount of materials sold is compatible to measurement of floor covering and the material dimensions. Material overage of approximately 10% is required in order to cut, seam, and trim materials. In some instances the amount of padding or underlayment installed may be less. Masters has taken this variation into full account in establishing pricing. Installation charges are based on the amount of material needed and not on the installed amount.

Product Color

Color match to samples will vary from dye lot to dye lot. Customer agrees to accept color variances that fall within industry-established ranges. Shading, pooling, water marking, shedding, fluffing or pile crushing do not constitute manufacturing defects. These are inherent characteristics of all pile fabrics. Missing tufts in looped carpet is not a defect and can be remedied by reinserting missing tufts by a qualified technician. Hardwood, cork, and bamboo are natural materials that will have color variations such as variations from heartwood to sapwood, mineral streaks, and variations in the grain. Temperature and humidity must be maintained within manufacturer specifications.

Despite every effort to accurately duplicate each product's color when shown on our website, actual colors may vary. Due to computer monitor resolution and color settings, subtle variations in color and surface texture may not be fully revealed when viewing products on our website. We make every attempt to give you a good representation of the available colors for each product available in our stores. For an accurate representation of product appearance, you should view a sample of the product in a store or request a sample of the product (if available) to be sent to your home.
